

# CELL ADAPTER CABLES

**CONVENIENT 3' CABLE**

**MINI-UHF MALE CONNECTOR**

Digital Antenna's cellular adapter cables are a convenient 3' length. The attached mini-UHF male connector easily connects to our PowerMax™ DA4000 Amplifier, Multi-Cell Phone Combiner or Dash-Mount Cable.

To find the appropriate cellular adapter cable, first locate the manufacturer of your phone or aircard in the alphabetical list below. Then, find the Digital Antenna adapter cable that corresponds with your specific cell phone or aircard model number.

If your model number is not listed, use Digital Antenna's new DA97U universal inductive coupler adapter. This innovative adapter allows any cell phone or aircard to be used with a direct connect amplifier. For best performance, however, always use the cellular adapter cable made specifically for your phone or aircard if available.

Digital Antenna's cellular adapter cable model numbers are shown in **BOLD**.
